SWI SWING WEIGHT INDEX

· BBCOR CERTIFIED .50 ·

The Swing Weight Index (SWI) is based on Moment of Inertia (MOI) and will vary due to the bat length, material, barrel size and end-load. A bat with a low SWI is evenly-balanced and delivers power through fast swing speeds. A bat with a high SWI is end-loaded and produces power with more mass behind the ball at impact.

GHOST DOUBLE BARREL

THE GHOST IS UNLIKE ANYTHING YOU'VE FELT OR HEARD BEFORE.

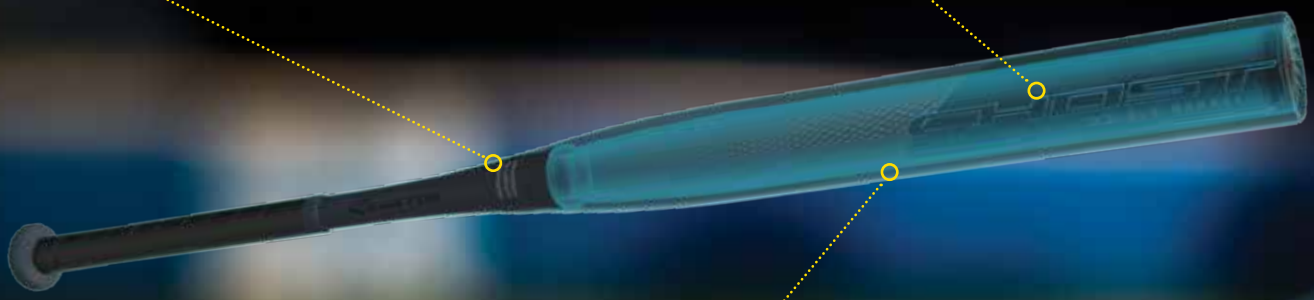
The Double Barrel technology creates the lowest compression fastpitch barrel on the market, for a better feel and explosive performance.

MAX POP

The softer outer barrel has the lowest compression in the game for maximum performance right out of the wrapper. No break in required.

SOFT FEEL

ConneXion+ technology and double barrel construction essentially eliminate all vibration



EXPLOSIVE SOUND

The collision between the outer and inner barrel creates an explosive sound, unlike anything you've heard before.

SUPERNATURAL PERFORMANCE

SOFT FEEL • EXPLOSIVE SOUND • MAX POP
