BAUER HOCKEY — 90 YEARS OF INNOVATION, DEDICATION AND COMMITMENT

Since 1927, when the company was founded in Kitchener, Ontario, the name BAUER has been synonymous with hockey. The never-ending heartbeat of the brand can be traced back to those trying years leading up to the Great Depression. It was in Kitchener where the Freibauer family, owners of the Western Shoe Company, struggled to keep their factory doors open in the midst of the devastating economy. As the Freibauer family worked tirelessly to keep its company alive, the true essence of the BAUER brand was born. Rather than choosing to follow the footsteps of countless other businesses, the Freibauer's refused to close its factory doors. Instead the family searched for ways to move forward.

Days turned to months and months turned to years, but the Freibauer family refused to give up. The family was too committed to its factory, its employees and its customers to simply close its doors and walk away. After several attempts to create a unique product that would save the company, a simple, but innovative idea was discovered in 1933 that would rescue the Freibauer family business and change the game of hockey forever.

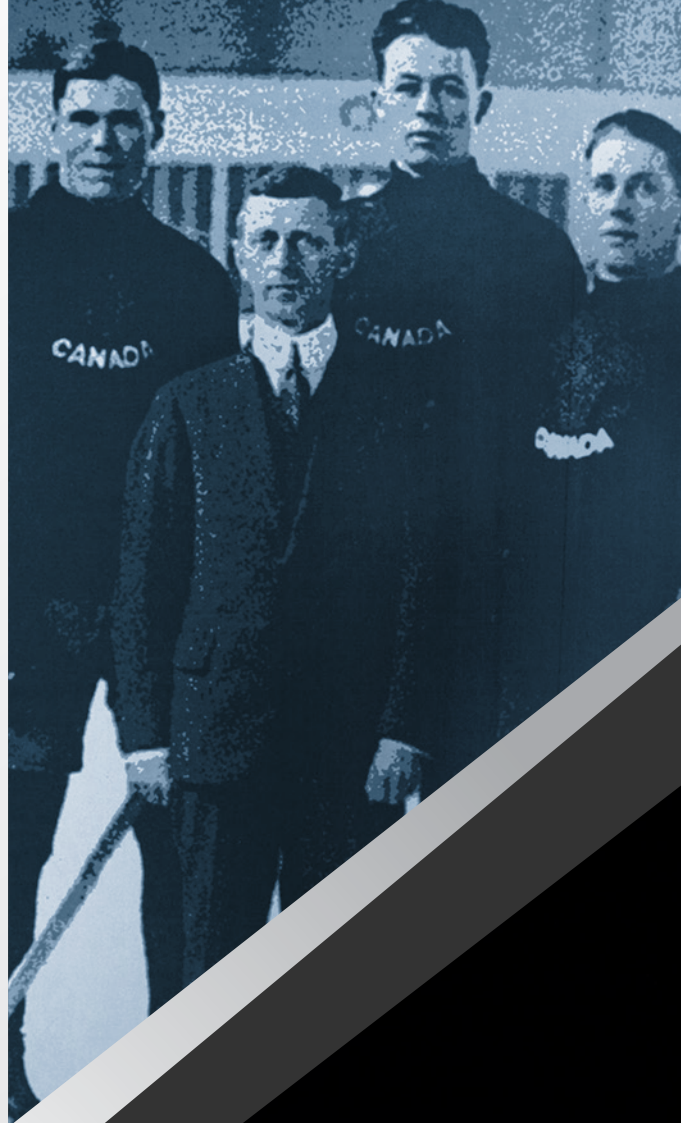

Reaching down and grabbing a pair of leather boots off the factory floor, a member of the Freibauer family carefully and ever-so meticulously attached a metal blade to each boot's sole. As the last rivet was inserted into place, the Freibauer family knew it had created something special.

At that very moment, the hockey skate was born. BAUER was born.

In 2017 we celebrate 90 years since BAUER was founded in Kitchener, and while those first BAUER skates were the essence of simplicity, they, along with the unyielding efforts of the Freibauer family define the same core values of BAUER today. Innovation. Commitment. Dedication.

It is that same passion and dedication that drives each and every employee within Bauer Hockey. Our mission is simple — to create the world's most innovative products to advance and protect hockey players of all abilities throughout the world.

And like the Freibauer family and the countless BAUER employees that followed — we will never give up on that commitment.

A PASSION FOR ADVANCING THE GAME

Since 1927, we've been at the forefront of hockey, improving the game at every level, and nowhere is that more apparent than skates. We changed the game forever when we attached the boot to blade. We revolutionized the industry with the TUUK holder. We pushed the limits and created robotic manufacturing to make 3-D lasted skates, and we perfected quick-release steel with LIGHTSPEED EDGE.

Our commitment to innovation is unwavering, and with the world's most advanced hockey research and design facility, we'll always be inventing new methods, materials and products to help players skate faster, harder and stronger. That's why the world's best players choose BAUER — everything we do is to elevate the players' game.

DEVELOPED WITH THE SCIENCE OF FIT

Fit is paramount in skates, and we take pride in the scientific approach we've taken to ensure the best fit so players can skate faster, harder and stronger. Through in-depth research, we've identified key areas of foot variance, and it's this understanding that has helped us develop three unique families of skates to create a fit for every player.

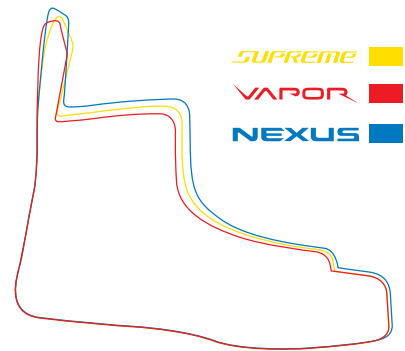

FOOT VARIANCES

Four key areas of variance in the foot

KEY BOOT DIMENSIONS

Our three families of fit use different boot dimensions to address key foot variances so player's can find their winning fit.

VAPOR 1X

VAPOR 1X

- 1) FLEX-LOCK PRO Tongue
- 2) LOCK-FIT PRO Liner
- 3) Comfort Edge Padding

- 4) LOCK-FIT PRO Facing
- 5) Curv® Composite
- 6) TUUK LIGHTSPEED EDGE

- 7) LS4 Steel
- 8) Ventilated Composite Outsole

FLEX-LOCK PRO Tongue

Fit. Flex. Protection. Slow-molding insert of the FLEX-LOCK PRO tongue creates a locked fit with forward flex and added protection.

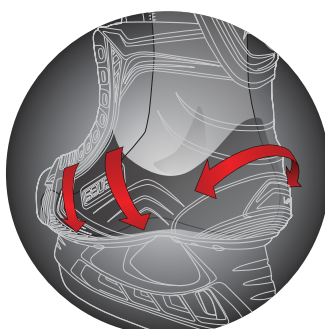

FLEX-LOCK PRO TONGUE

LOCK-FIT PRO Liner

Lock it down, speed it up. The LOCK-FIT PRO liner keeps your foot dry and locked in place for maximum agility and acceleration.

LOCK-FIT PRO LINER

LOCK-FIT PRO Facing

Lace up and GO. Combination of additional lace lock and a softer flex composition, the 1X injected facing creates a locked fit — so your last stride is as fast as your last.

BAUER SPEED PLATE™

Industry leading proprietary technology, the BAUER SPEED PLATE™ features a recovery alloy that provides the player with a revolutionary customized fit for the entire foot. The precision fit allows the skate to become a part of the foot enabling the player to achieve optimized balance and stability resulting in higher top end speed and ultimate efficiency.

BAUER SPEED PLATE™

[1047134] 3-12 full only

Features

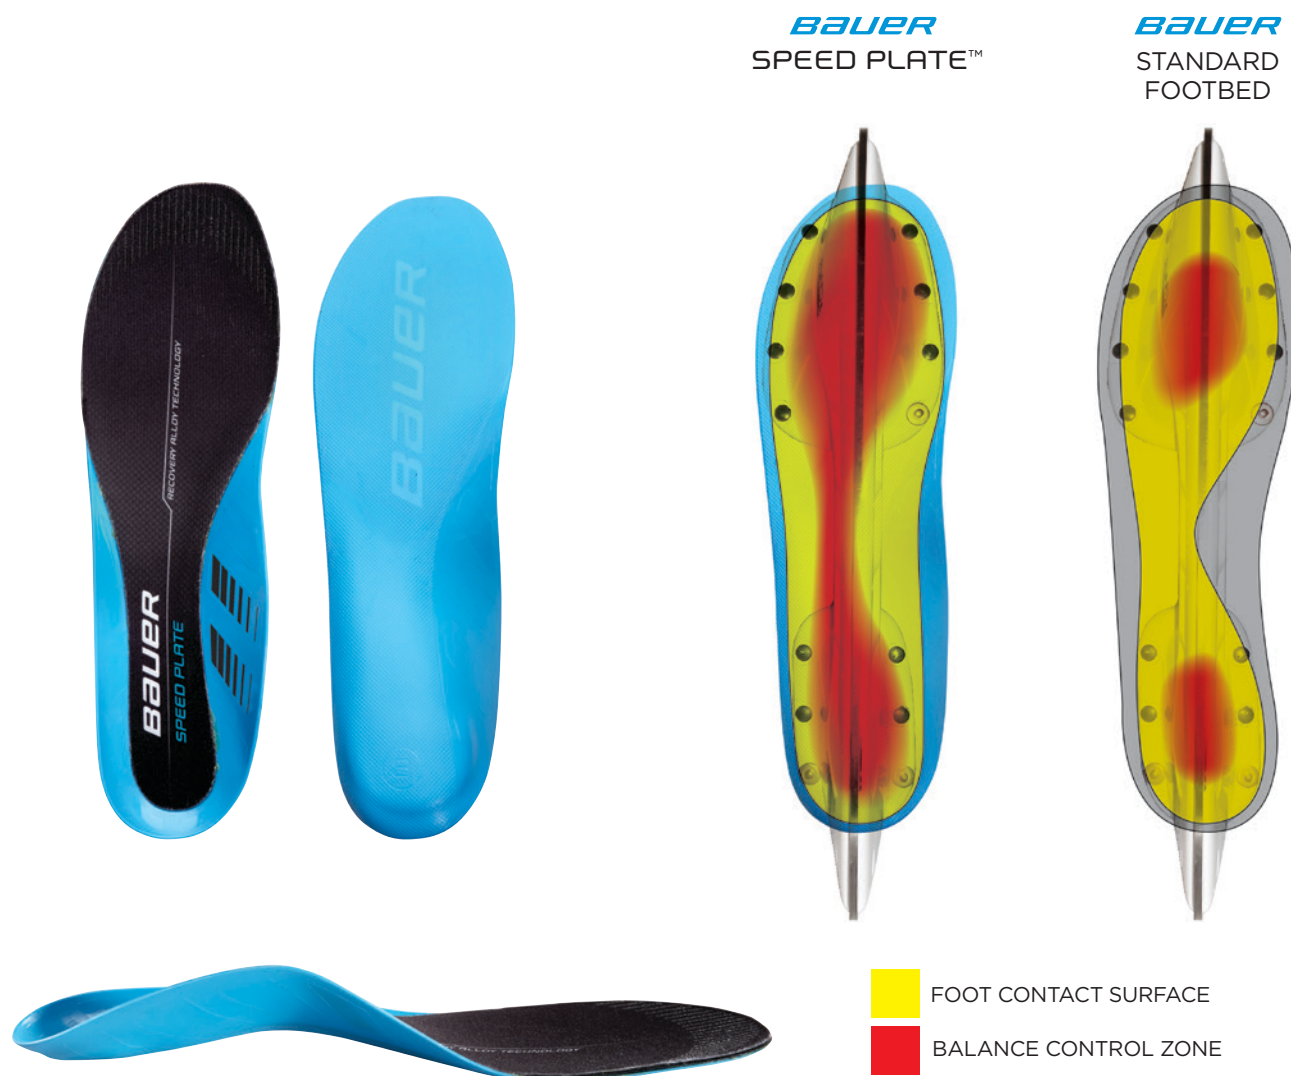

Full length Recovery Alloy technology for on-the-spot customized balance fitting

Mid-density top foam covering in high impact landing zones

Easy trim and fit with cut-line indicator

Thermo-chromatic print applications for easy to customize guidelines

Grip applications for foot stability and reduced slippage

NEXUS 1N

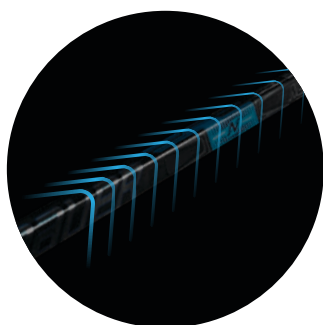

- 1) Monocomp Technology
- 2) TeXtreme® Technology

- 3) eLASTech
- 4) Pure Shot Blade Profile

- 5) Control Shaft Geometry
- 6) POWER SENSE 2 Blade Core

Control Shaft Geometry

14% rounder corners than the 2015 1N. Rounder corners improve grip and contact for greater control.

Easy Load Taper Technology

Moderate taper allows for a smoother, easier load that creates more consistency with each shot.

New and Improved Sweet Spot

By thinning the taper and creating rounder corners, it has allowed us to soften the X axis even more vs. the previous 1N. By softening the X axis, it allows the player to load their shot much easier.

NEXUS STICKS

S17 NEXUS 1N Composite Stick — NEW

NEXUS mid-kick flex profile with Sweet Spot technology
Control Shaft Geometry
Easy Load Taper technology
eLASTech technology (SR and INT Only)
Lightweight TeXtreme® construction

VAPOR 1X

- 1) Monocomp Technology
- 2) TeXtreme® Technology

- 3) eLASTech
- 4) Pure Shot Blade Profile

- 5) Micro Feel II Shaft

Enhanced QRT

Quick Release Taper is thinner to keep energy transfer near the bottom of the shaft, helping you get your shot off faster.

QRT TECHNOLOGY

30% More Durable Shaft vs. Previous 1X Model

Using computer analysis testing, we enhanced the layout of carbon fiber in the shaft to increase durability.

AERO-SENSE 2 Blade Core

Designed with our AERO FOAM 3 blade core for a light but crisp feel. A new evolution of SENSE technology enhances the stick's playability, performance and usability by absorbing more energy. This complex combination is lightweight, improving the overall balance of the stick, while improving torsional stability for a strong and SENSE quick release on all shots.

- 5) SUPREME Power Shaft
- 6) 1S Tactile

MPK — Maximum Power Kick

All new taper geometry that thickens the hosel area in order to create a higher kick point. This maximizes the energy transfer from handle to blade, giving players their hardest shot possible.

POWER SENSE CORE 2

The POWER SENSE CORE 2 blade is constructed with the next evolution of SENSE technology. An updated process has integrated SENSE layer material with the TeXtreme® carbon fiber on the outer portion of the blade. By integrating SENSE layer materials, overall blade weight is reduced and balance is improved while maintaining key dampening performance attributes of SENSE technology.

SUPREME STICKS

COMMITTED TO PROTECTION

Whether it's innovative protection, comfort or fit, our history of advancing the helmet is clear, and we're deeply committed to continuing to enhance the performance and protection of our equipment.

That's why many of the world's best players choose BAUER — everything we do is to enhance the player's game.

- Developed in partnership with leaders in hockey helmet research
- Designed by a team with 120 years of combined helmet experience
- Validated at our world-class hockey research and design center

Innovation Driven by the Game

SUSPEND-TECH

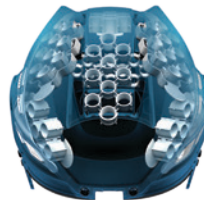

Allows the inner liner to move independently from the inner foam of the helmet to manage all types of hockey impacts.

VTX TECHNOLOGY

Exceptionally lightweight foam that absorbs both high-energy and low-energy impacts.

seven TECHNOLOGY

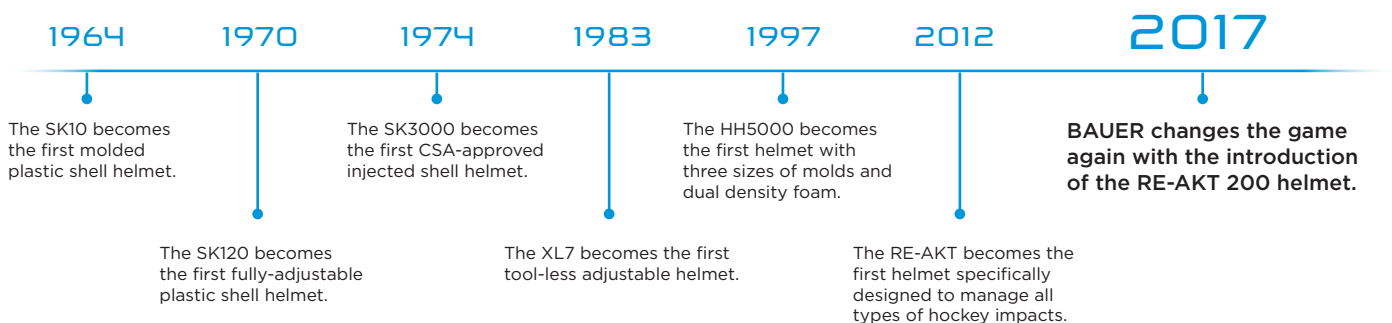

A system of cylinders that work together to manage impact from high-energy forces.

Xrd extreme impact protection

Premium material that provides enhanced impact protection and comfort.

A Proven History of Advancement

RE-AKT 200

- 1) XRD® Foam
- 2) VTX Technology
- 3) Central Tool-free Adjustment

- 4) SUSPEND-TECH NG Liner System
- 5) Memory Foam
- 6) FIT PLATE

- 7) New Shell Design

Next Generation Liner

The multi-density SUSPEND-TECH NG Liner adapts to your head for maximum comfort and protection from all the impacts of the game.

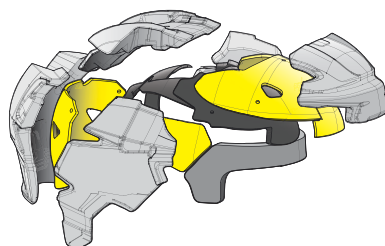

Custom Fit

The BAUER FIT PLATE is a moldable occipital lock that allows you to create a truly custom fit for added comfort.

Comfort and Protection

The integration of industry leading lightweight VTX, XRD® Foam and advanced molded foams create our most innovative liner to date.

Helmet Sizing and Certification

Fittings:

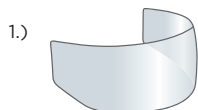

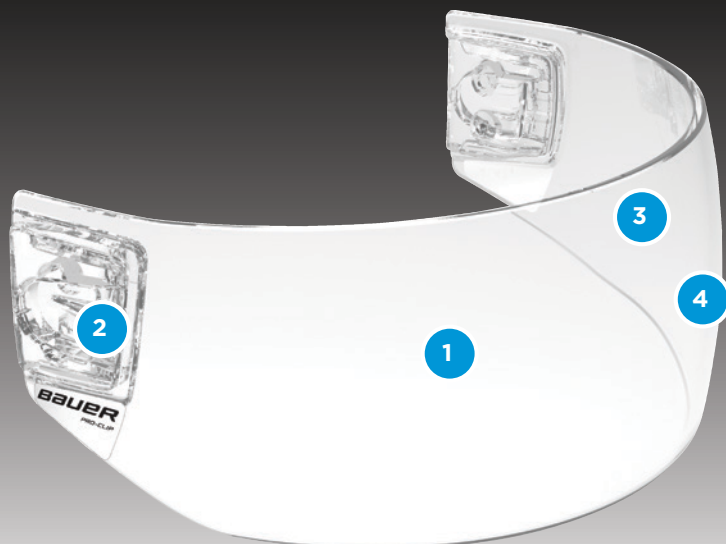

1. Open helmet to its largest setting and position on the head so that the front edge of the helmet is one finger width above the eyebrows.
2. Slide the front and back portions of the helmet together until a comfortable, snug fit is achieved.
3. Tighten the adjustment mechanism.

Players should only use CSA, HECC and CE certified helmets. These helmets have stickers affixed that indicate their compliance with the applicable standards.

[905 I2]

Facemask Sizing Info

The facemask should fit snugly to the chin. If it is too long, it may not remain in place during impact.

When the player's mouth is closed, the chin should fit comfortably into the chin-cup. Attach the facemask securely to a compatible, certified helmet according to the instructions provided.

BAUER recommends the use of a mouth guard, especially when using a half shield. Injuries to the face, nose, eyes, jaw and teeth may occur while wearing a half shield.

NEXUS 1N

- 1) Pro Style Flex Cuff
- 2) 3-D BAUER Embroidery

- 3) Seven+ Technology™
- 4) 37.5® Technology

- 5) Patented 3-Piece Flex Lock Thumb

Classic Fit

Built off a classic fit platform, the NEXUS 1N glove provides a volume fit in the fingers, backhand and cuff region.

Seven+ Technology™

Molded foam technology specializing in multiple impact management. Seven+ Technology™ foam is able to withstand repeated impacts and hold its natural shape.

Pro Ivory Nash Palm

The #1 requested material by professional athletes, ivory nash provides trusted durability with a soft, consistent feel throughout the entire palm. Nash overlay adds additional layer of durability.

- 4) 37.5° Technology
- 5) 3-D BAUER Embroidery

- 6) Patented 3-Piece Flex Lock Thumb
- 7) AX SUEDE™ QUATTRO Grip Palm

Tapered Fit

With a wider fit in the cuff and standard fit through the fingers, the VAPOR 1X offers maximum control with ample wrist mobility. This fit represents the most popular BAUER fit on the market today.

Triple Density Protection

A combination XRD®, Mid Density and AEROLITE foam technology allows for ultimate mobility and provides enhanced, lightweight impact protection.

QUATTRO Grip Palm Powered By AX SUEDE™

Built to outlast and outperform all other palm suedes. Triple fiber blend construction provides an exceptionally soft feel with superior abrasion properties. Additional grip coating enhances dexterity and stick control. QUATTRO Grip palm is offered in standard ivory (1X PRO) and select team colors (dark grey, orange, red, blue and gold).

SUPREME 1S

- 1) Curv® Composite
- 2) POWERLITE Technology
- 3) FleXorb

- 4) 37.5° Technology
- 5) Sanitized® Odor Resistant Treatment
- 6) Molded Vent Armor Foam

- 7) Sleeve Lock

Anatomical Fit

The SUPREME 1S protective line provides a natural, close-to-the-body fit that helps players achieve maximum power with every movement.

Curv® Composite with POWERLITE

POWERLITE technology is a lightweight, moldable foam that contours to a player's body for a true anatomical fit. Integrating Curv® composite in key impact zones creates enhanced, lightweight protection.

*Curv is the registered trademark of the Propex Operating Company, LLC

Strap Lock System / Integrated Sleeve Lock

The Strap Lock System and Integrated Sleeve Lock helps secure the product to the player's body for enhanced stability and protection.

SUPREME UNDER PROTECTIVE

S17 SUPREME 1S Under Protective – NEW

Size
Shoulder Senior [1050690] S, M, L, XL
Shoulder Junior [1050691] S, M, L

Features
PROTECTION:
Shoulder Cap: Curv® composite and POWERLITE technology
Sternum: Curv® composite and Flexorb
Flexorb combines the revolutionary technologies behind G-FORM® and XRD® Materials
Front Side Panels: MD foam with molded Vent Armor foam with side panel extension fit
Spinal: HD foam with PE inserts
Back Side Panels: Molded Vent Armor foam
Bicep Guard: Adjustable 1-piece Curv® composite construction
Arch: Molded HD foam
Belly Pad: Removable MD foam
FIT/MOBILITY:
Overall Fit: Anatomical
Base Body: Patented Free Flex chest construction
Liner: 37.5° Technology with Sanitized®, odor resistant treatment and perforated foam

Size
Elbow Senior [1050675] S, M, L
Elbow Junior [1050741] S, L

Features
PROTECTION:
Cap: Injected cap with Curv® composite and POWERLITE technology
Bicep Guard: Molded Vent Armor foam
Forearm Guard: Molded Curv® composite with HD foam
FIT/MOBILITY:
Overall Fit: Anatomical
Interior Elbow Joint: Flexorb combines the revolutionary technologies behind G-FORM® and XRD® Materials
Strapping System: 3-strap system with anchor and overlock strap
Liner: Integrated Sleeve Lock with 37.5° Technology and Sanitized® odor resistant treatment

Size
Shin Senior [1050807] 14", 15", 16", 17", 18"
Shin Junior [1050810] 11", 12", 13"

Features
PROTECTION:
Shin Cap: Curv® composite and POWERLITE technology
Knee Cap: Injected knee cap
Interior Knee: Flexorb combines the revolutionary technologies behind G-FORM® and XRD® Materials
Calf Guard: Adjustable molded MD foam with PE insert
Knee Wing: Vent Armor foam with HD foam
Thigh Protector: HD foam
FIT/MOBILITY:
Overall Fit: Anatomical
Construction: Multi-segmented design
Strapping System: 2-strap system featuring anchor strap
Liner: 37.5° Technology with Sanitized® odor resistant treatment

S17 SUPREME S190 Under Protective – NEW

Size
Shoulder Senior [1050692] S, M, L, XL
Shoulder Junior [1050693] S, M, L

Features
PROTECTION:
Shoulder Cap: Thermoformed cap with MD foam
Sternum: XRD® and HD foam
Front Side Panels: MD foam and Vent Armor foam
Spinal: HD foam with PE inserts
Back Side Panels: Molded Vent Armor foam
Bicep Guard: Adjustable 1-piece MD foam with molded PE insert
Arch: Molded HD foam
Belly Pad: Removable MD foam
FIT/MOBILITY:
Overall Fit: Anatomical
Base Body: Patented Free Flex chest construction
Liner: THERMO MAX

Size
Elbow Senior [1050753] S, M, L
Elbow Junior [1050754] S, L

Features
PROTECTION:
Cap: Injected cap with molded MD foam covering
Bicep Guard: Vent Armor foam with molded PE dome
Forearm Guard: HD foam with molded PE insert
FIT/MOBILITY:
Overall Fit: Anatomical
Interior Elbow Joint: Interior XRD® Foam donut protection
Strapping System: 3-strap system with anchor and overlock strap
Liner: THERMO MAX

Size
Shin Senior [1050814] 14", 15", 16", 17", 18"
Shin Junior [1050815] 11", 12", 13"

Features
PROTECTION:
Shin Cap: Thermoformed ribbed cap
Knee Cap: Injected knee cap
Interior Knee: XRD® Foam
Calf Guard: Adjustable molded MD foam with PE insert
Knee Wing: Vent Armor foam
Thigh Protector: HD foam
FIT/MOBILITY:
Overall Fit: Anatomical
Construction: Multi-segmented design
Strapping System: 2-strap system including anchor top strap and calf wrap
Liner: THERMO MAX

S17 SUPREME S180 Women's Shoulder Pad – NEW

Size
Women's Shoulder [1050709] XS, S, M, L

Features

PROTECTION:

Shoulder Cap: Injected cap with molded MD foam
Sternum: XRD® Foam with Vent Armor foam and PE insert
Front Side Panels: Perforated MD foam
Spinal: Vent Armor foam with HD foam and PE insert
Back Side Panels: Perforated MD foam
Bicep Guard: Adjustable 1-piece MD foam with molded PE insert
Arch: MD foam with molded PE insert
Belly Pad: Removable MD foam

FIT/MOBILITY:

Overall Fit: Anatomically-designed for women
Base Body: Stretch and flex chest construction
Liner: THERMO MAX

S17 SUPREME S170 Under Protective – NEW

Size

VAPOR 1X

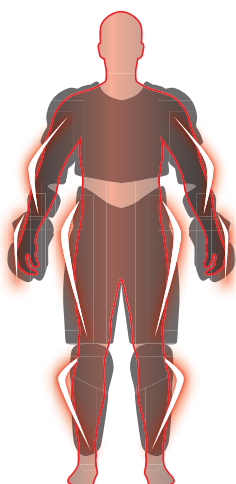

- 1) Transfer Mesh
- 2) Free Flex Bicep Guard
- 3) AEROLITE Technology
- 4) 37.5° Technology

- 5) Curv® Composite Shell
- 6) Free Flex Cap
- 7) Adjustable Strap System
- 8) Free Flex Cap Construction

- 9) Multi-segmented Bicep Guard
- 10) Anchor Strap

Tapered Fit

VAPOR 1X protective features a tapered fit profile, with a wider fit at the top and standard fit through the lower portion of the shin shell and elbow pad.

Curv® Composite + AEROLITE Technology

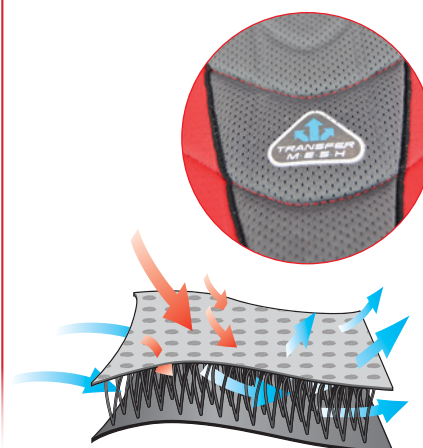

The integration of Curv® composite with AEROLITE technology increases protective properties in key impact zones and reduces overall weight.

*Curv is the registered trademark of the Propex Operating Company, LLC

Transfer Mesh

New, breathable fabric that enhances 37.5° Technology by accelerating the evaporation process by maximizing air flow through the equipment in key heat zones.

- 6) 37.5° Technology
- 7) Suspender Buttons
- 8) High Frequency BAUER Logo

- 9) Stretch Zones
- 10) 840 Denier Overlay

Tapered Fit

The Vapor 1X pant is constructed with a standard fit at the top and a close to the body fit in the legs. This construction allows for a quick, agile movement for a player looking for ultimate mobility.

Curv® Composite + AEROLITE Technology

The integration of Curv® composite with AEROLITE technology increases protective properties in key impact zones and reduces overall weight.

*Curv is the registered trademark of the Propex Operating Company, LLC

Inner Belt Lock System

The inner belt lock system is a new suspended belt lock that secures the fit of the pant to the player's body to increase mobility while skating. Inspired by professional athletes.

VAPOR PANTS

S16 VAPOR 1X Pant

Size
Senior [1048096] S, M, L, XL

Features

PROTECTION:

Spine: Free Flex spine protection with Curv® composite and AEROLITE technology
Hip: Molded dome construction with Curv® composite and AEROLITE technology
Thigh: Curv® composite construction with molded AEROLITE technology

Warning: Neck laceration protectors are recommended to minimize the possibility of injury resulting from skate cuts or other superficial blows. Neck laceration protectors cannot protect against all potential injuries. Collar style protectors provide coverage at critical areas. Use a bib-type style to extend protective area down to the upper chest, from shoulder to shoulder.

How to Measure For a Good Fit

- A CHEST**
- B WAIST**
- C SEAT**

A CHEST

Measure around the fullest part of your chest, keeping the tape firmly under your armpits and around your shoulder blades.

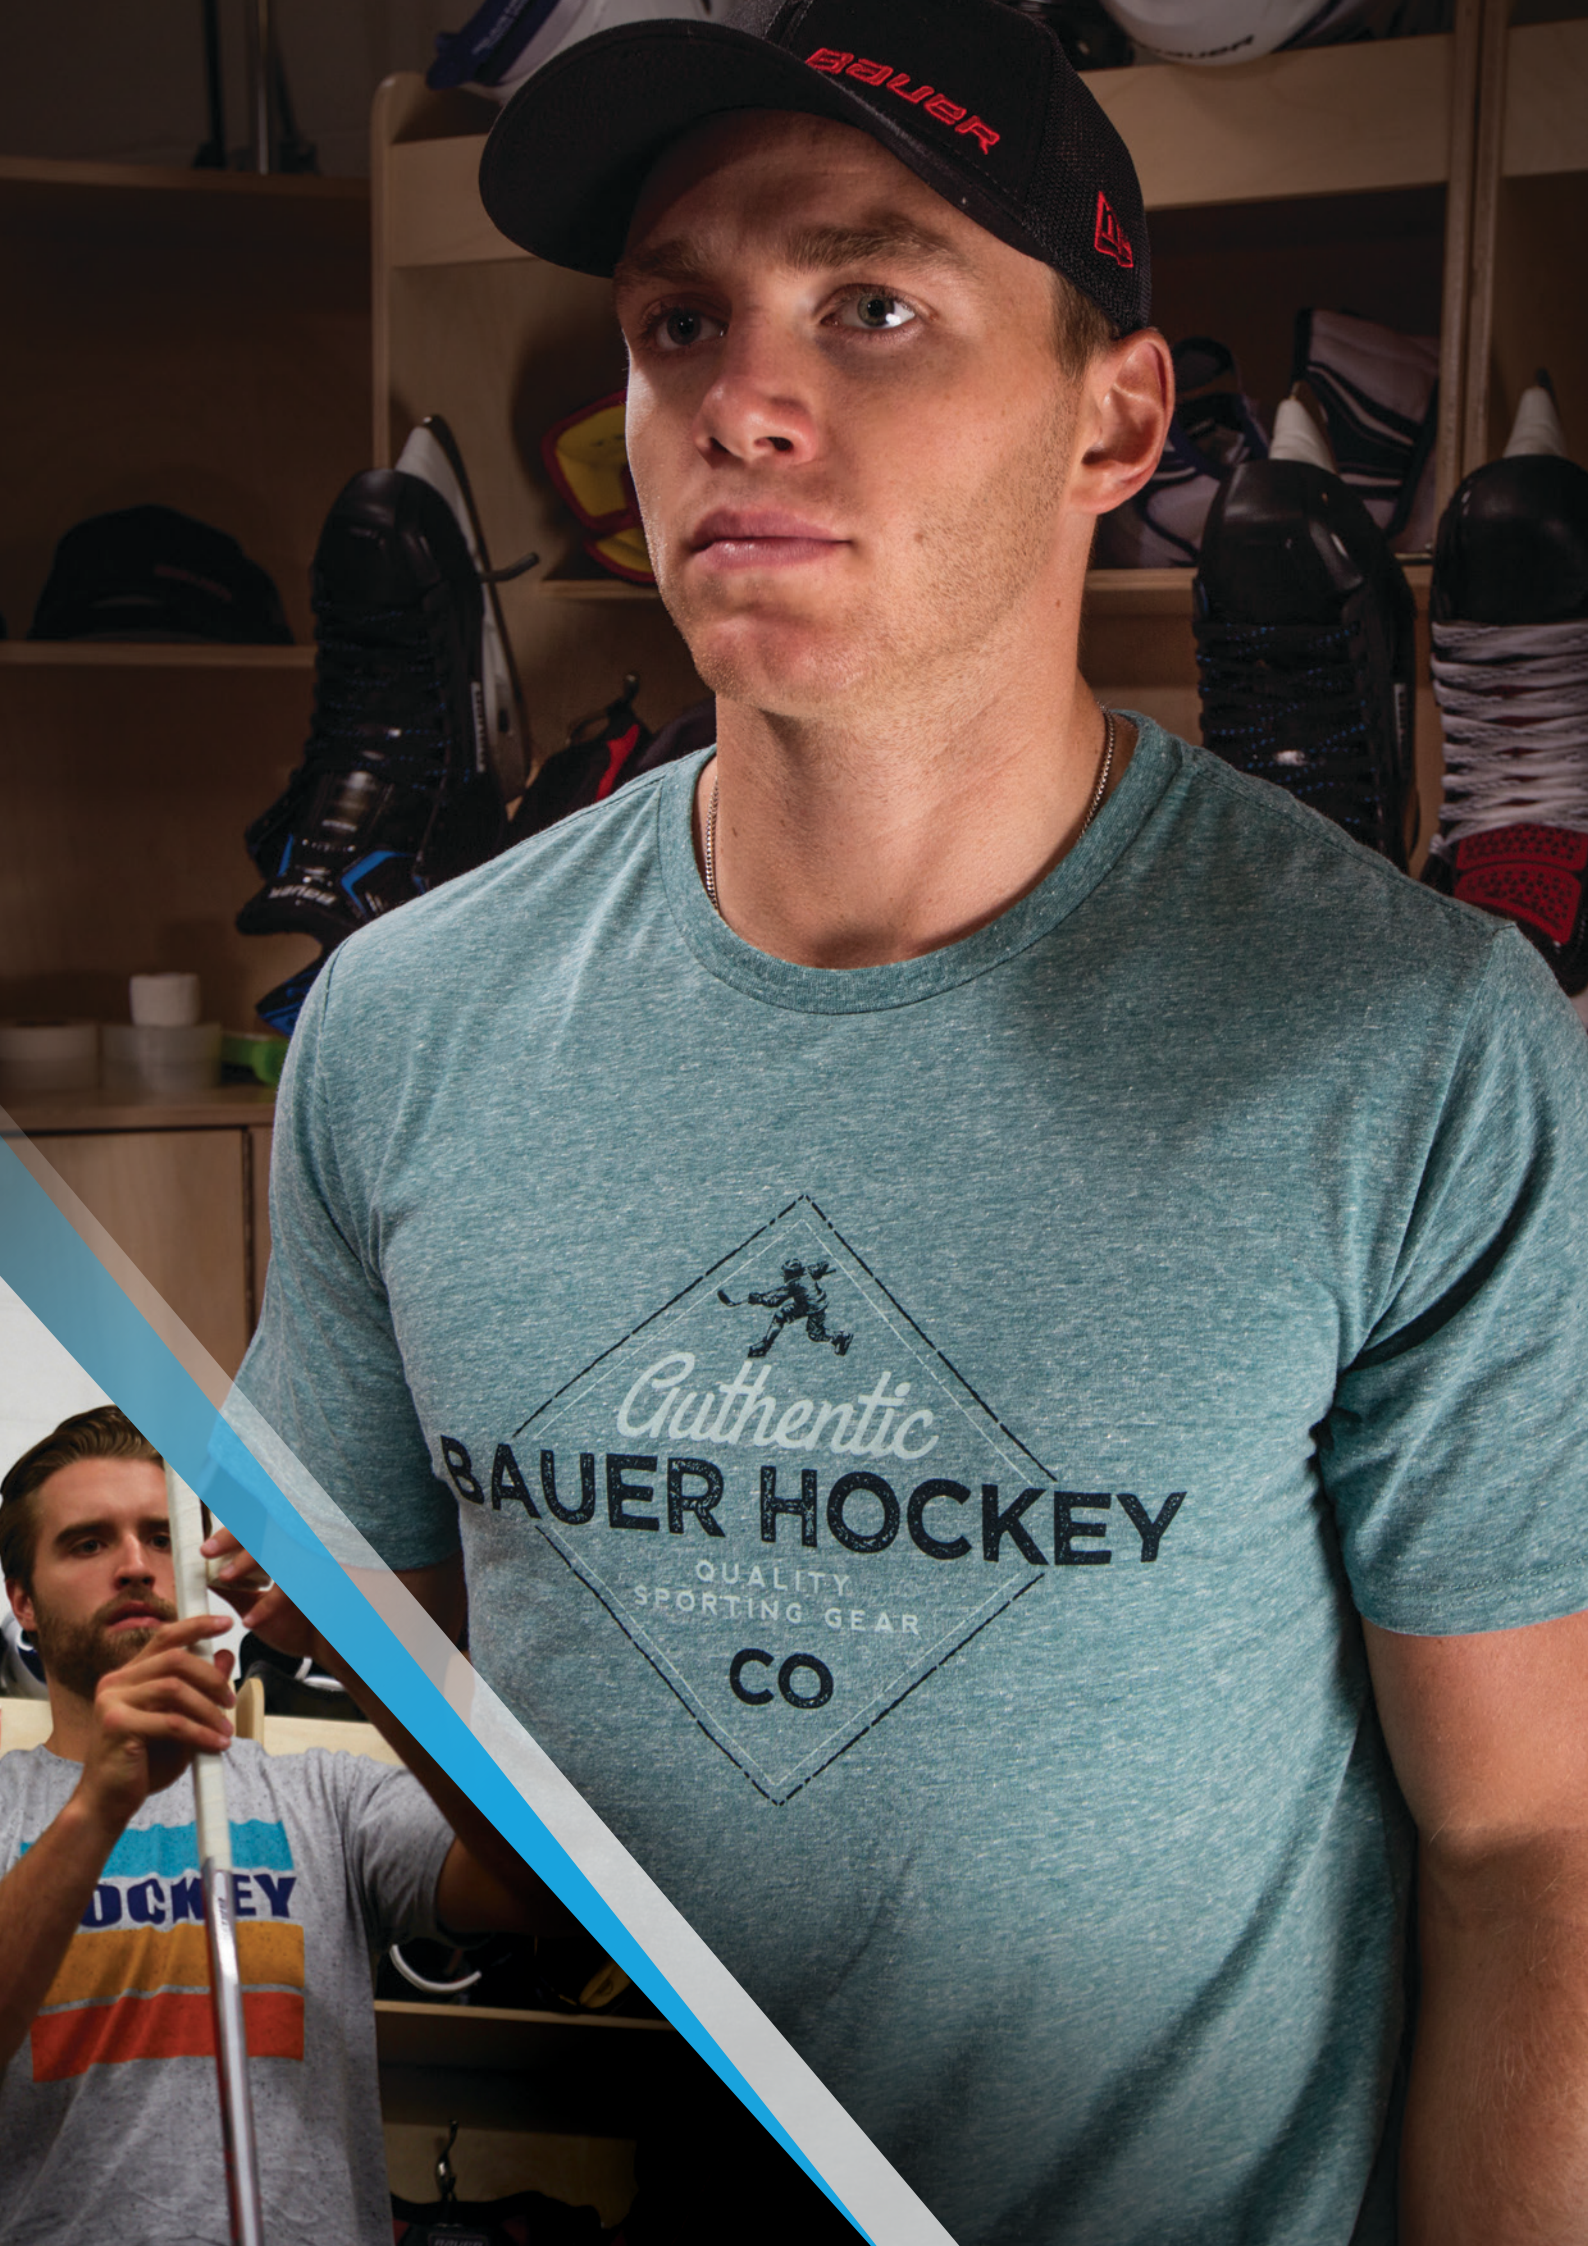

B WAIST

Measure around the natural waist (where your body creases leaning to the left or the right).

C SEAT

Measure around the fullest part of the seat.

- For best results, take measurements over undergarments.
 - Hold tape measure firmly, not tightly.
 - Keep tape measure parallel to the floor.
 - Match your measurements to the above size chart.
- If measurements fall between sizes, go to the next size up.

How to Measure for a Good Fit

A CHEST
B WAIST
C SEAT

A CHEST

Measure around the fullest part of your chest, keeping the tape firmly under your armpits and around your shoulder blades.

B WAIST

Measure around the natural waist (where your body creases leaning to the left or the right).

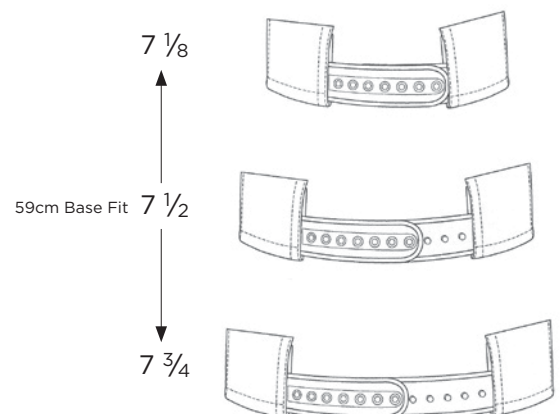

C SEAT

Measure around the fullest part of the seat.

- For best results, take measurements over undergarments.
- Hold tape measure firmly, not tightly.
- Keep tape measure parallel to the floor.
- Match your measurements to the above size chart. If measurements fall between sizes, go to the next size up.

Tapered Flex Core

New tapered flex core thins out the outer profile of the 1X OD1N pad to save weight and add flex—while keeping maximum landing zone for optimal sliding and ice seal.

Tune Fit Strapping System

The Tune Fit has been engineered for optimal balance on the leg and full adjustability for desired fit and rotation.

Transfer Mesh

New, breathable fabric that enhances 37.5® Technology accelerates the evaporation process by maximizing air flow through the equipment in key zones.

VAPOR 1X

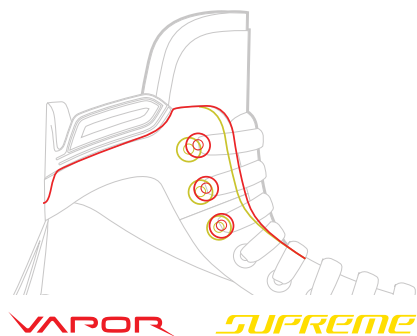

- 1) X-Wrap
- 2) Curv® Composite Quarter
- 3) Composite Outsole

- 4) Goalie-specific Toe Cap
- 5) Dynamic Flex Tongue

- 6) Dynamic Flex Collar
- 7) VERTEXX EDGE Holder and Runner

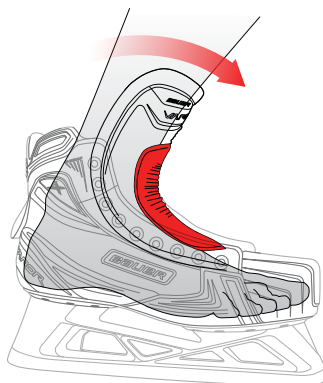

X-Wrap

3mm extended facing allows the goalie to stay in attack position while adding more wrap for better overall fit.

Dynamic Flex Tongue

Molded insert performs like a spring that allows the goalie more forward flex in the attack position. It also features an anatomically asymmetrical profile that follows the shape of the top of the foot. This allows for better fit and lace bite protection.

LOCK-FIT PRO Liner

Features grip liner in key zones to keep the foot locked into place ensuring optimal fit and performance.

VAPOR GOAL SKATES

VAPOR 1X

- 1) Control Zone
- 2) INNEGRA™ Fiber Technology

- 3) Balsa Core
- 4) AERO FOAM 3 Blade Core

- 5) Same Dampening and Playability as Foam Core

INNEGRA™ Technology Construction

Unique INNEGRA™ fiber woven with carbon reinforcement combines maximum durability with the feel of foam core.

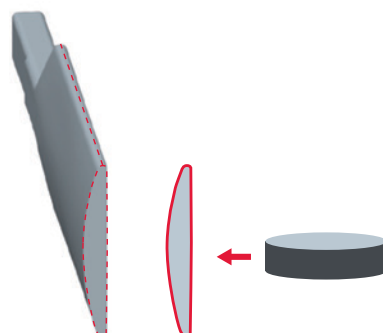

Balsa Core

Balsa wood inserted into the paddle increases puck dampening properties for superior feel compared to traditional foam core.

Arch Paddle Geometry

Arch Paddle unique geometry creates optimal balance in stance and puck handling.

SUPREME 1S

- 1) Control Zone
- 2) ERGO+ Paddle Geometry

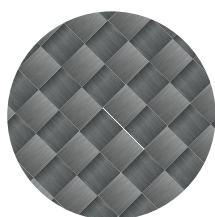

- 3) TeXtreme® Technology Construction on Paddle and Blade

- 4) AEROFOAM III Blade Core

TEXTREME® Technology Construction

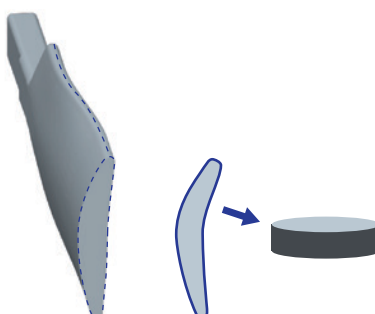

Exclusive to BAUER in hockey, TeXtreme® is an ultra-lightweight and strong carbon fiber. 20% stronger than conventional carbon, it reduces weight without sacrificing strength.

TeXtreme®
TECHNOLOGY

ERGO+ Paddle Geometry

Patented thin ergonomic paddle geometry allows the paddle to seal closer to the pads and body. The concave paddle increases rebound control and reduces weight.

AEROFOAM III

A low density blade core that is responsive to shot impacts for better puck feel. The lightweight AEROFOAM III blade core technology also improves the balance of the stick making it feel even lighter. The torsional stability of the blade helps for better rebound control and maximum playability.

AEROFOAM III
BLADE CORE TECHNOLOGY

Reengineered Lightweight Profile Shell

Keeping the iconic PROFILE shell shape the 960XPM has a full layer of 12K carbon weave protecting its fiberglass and INNEGRA™ foundation. The INNEGRA™ fiber in the forehead and the chin provides extra vibration dampening in the areas which are most frequently impacted. The PROFILE 960XPM is now offered in two sizes to provide more goalies with a more accurate fit.

Elite Level Impact Protection

The all new mechanically attached PROFILE liner features impact absorbing XRD® Foam and soft VN foam throughout the mask. The XRD® Foams have been placed in the key areas to better manage impacts.

37.5® Technology Sweatband

37.5® Technology in the sweatband provides revolutionary sweat evaporation for enhanced comfort and performance.

*Products carrying a Non-Certified designation do not meet the certification requirements of CSA and HECC. Not for sale in Canada.

DESIGNS

Goal Mask Sizing

It is recommended that all goaltenders wear CSA and HECC certified masks. All CSA and HECC certified masks have a sticker indicating their certification.

When fitting a BAUER goaltender mask, adjust the unit so that the upper perimeter of the frontal component is 1/4 inch above the eyebrow.

For a proper fit, make sure all straps are fastened so that the chin cup fits snugly against the chin.

VAPOR 1X

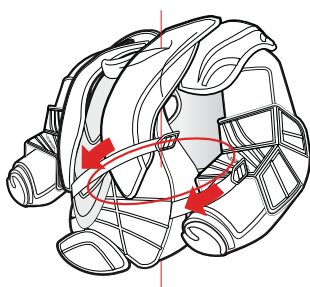

- 1) AEROLITE Shoulder Floaters
- 2) Curv® Composite Bicep Technology
- 3) AEROLITE Arm Floater

- 4) Curv® Composite Forearm Technology
- 5) Transfer Mesh Featuring 37.5° Technology

- 6) Free Flex Shoulder Floater
- 7) Fast Strap Harness System

Ultimate Mobility

The VAPOR 1X chest and arm is constructed with the Fast Strap harness system. This allows the goalie to adjust the chest and arm with ease for the most desired fit. This construction—paired with the Free Flex panel segmentations—allows for quick and agile movements for goalies looking for ultimate mobility.

Curv® Composite and AEROLITE Technology

The integration of Curv® composite with AEROLITE technology increases protective properties in key impact zones and reduces overall weight.

*Curv is the registered trademark of the Propex Operating Company, LLC

Transfer Mesh

New, breathable fabric that enhances 37.5° Technology accelerates the evaporation process by maximizing air flow through the equipment in key zones.

	S / M	20" - 22" / 51 cm - 56 cm

Fitting Guide: When fitted properly, goal pants should provide unrestricted movement in the crouch position, but should not be so loose that they rotate excessively around the waist. Loosely fitting pants provide superior net coverage in addition to making the goalie look bigger. Goal pants should provide overlapping coverage with the bottom of the chest pad and the tops of the goal pads.

PRODIGY

Whether they're already skating circles around you or stepping up to the blue line for the first time, nothing makes hockey more accessible and fun than the right equipment. The new PRODIGY® line from BAUER is designed specifically with that in mind. Born from our deep knowledge of hockey, the PRODIGY line meets the needs of today's young players and their parents. Lightweight, adjustable and built specifically for youth, the PRODIGY line gives your child the confidence to grow into the game while enjoying every moment.

PRODIGY — Right from the start.

PRODIGY® Composite Sticks – NEW

The PRODIGY® Stick was designed in four specific heights, each with a corresponding shaft thickness and flex profile, to maximize player performance. An enlarged end cap and instructions on how to tape both the handle and blade of the stick make for easy stick preparation.

Sticks optimized for player needs at different ages and sizes
Right height and flex for every player
Optimal lie and curve for youth shots
Ideal width and blade stiffness for stick handling

FLEX

Jr Patterns: P92

40 Flex – Blue [1050223] 50"

Yth Patterns: P92

PRODIGY® Composite Goal Stick – NEW

Yth Patterns: P31

Black [1051064] 20" Left (Lie 14, mid open curve)

Design Features

SHAFT

Double concave geometry for better feel
Replaceable handle grip

PADDLE

Flat front geometry improves rebound control, balance and reduces weight
Reinforced polyurethane core for increased stiffness and puck control
Fiberglass reinforced outer wrap
Scaled down size ideal for youth goalies

BLADE

Low density foam for optimized balance and feel
Scaled down size ideal for youth goalies

PRODIGY® PLAYER

Size
Yth [1046518] 8", 9"

Features	FIT/MOBILITY:
PROTECTION:	Overall Fit: Youth specific
Foams: Single density	Finger: 2-piece index
Thumb: 1-piece thumb with PE insert	Palm: Single layer nash
Shell: Stretch mesh	Liner: Hydrophobic

Color
Black [BLK]

For glove sizing, please visit page 73 in the Gloves section.

PRODIGY® Top and Bottom

This unique 2-in-1 system allows players to slip right into this last layer of protection. Additional padding was applied where it's needed most—in the elbows, knees and tailbone—to ensure a more comfortable experience on ice. Several features, such as a youth-specific shoulder cap, a strapping system on the shin and suspender buttons all help provide an optimal fit. Also part of this system is a universal pocket that fits either jock or jill.

YTH TOP [1046247] S, M, L

Integrated shoulder and elbow system
Segmented design for maximum mobility
Floating bicep protection for youth-specific fit

Features
Shoulder Cap: Double density foam construction
Sternum: Molded double density foam
Spinal: Vented spinal foam construction
Bicep Guard: Adjustable elbow system
Elbow Cap: Molded MD foam
Forearm Guard: MD foam
Elbow Joint: MD foam + sleeve
Elbow Strap: 2-point strapping system
Liner: Hydrophobic mesh

YTH BOTTOM [1046248] S, M, L

Integrated pant, shin and jock/jill system
Customized fit with pant leg zippers and suspender buttons

Features
Shin Cap: Double density foam with PE insert
Knee Cap: Injected knee cap
Calf Guard: Molded double density
Shin Strap: Anchor strap
Tail Pad: LD foam with PE insert
Shell: Nylon stretch panels

For top sizing, please visit page 85 in the Under Protective section.
For bottom sizing, please visit page 97 in the Pants section.

NO BOUNCE HOCKEY BALLS

No Bounce Hockey Balls

Perfect hockey ball for any league or your next game in the cul-de-sac
Available in both warm weather and cool weather options

Orange

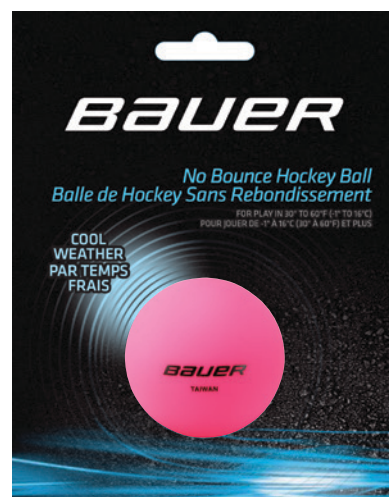

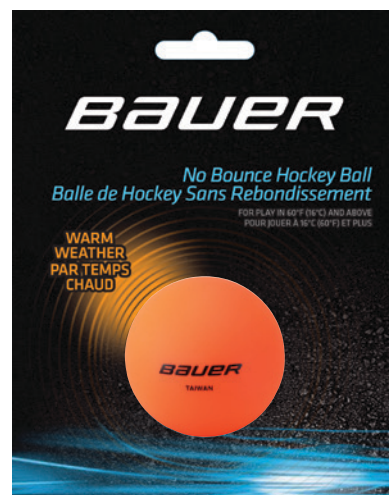

Warm weather: For play in 60°F (16°C) and above

Single Carded	[1046636]	Single ball on blister card
4-Pack	[1046640]	4-pack in recloseable mesh bag
Bulk	[1046638]	Box of 36

Pink

Cool weather: For play in 30° to 60°F (-1° to 16°C)

Single Carded	[1046637]	Single ball on blister card
4-Pack	[1046641]	4-pack in recloseable mesh bag
Bulk	[1046639]	Box of 36

BAUER XD No Bounce Hockey Balls

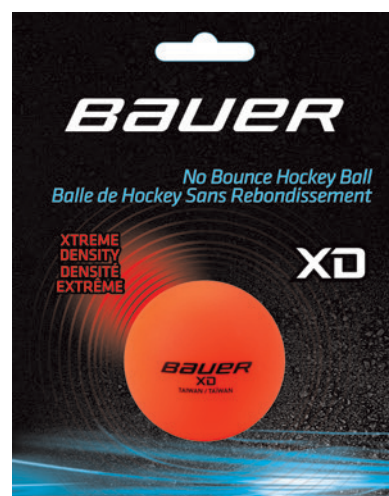

XD stands for "Xtreme Density"

XD meets the standards of indoor leagues that require a harder and heavier ball

Harder and heavier than our standard orange no bounce hockey ball

Great ball for hot weather (over 75° F)

Single Carded	[1049655]	Single ball on blister card
Bulk	[1049656]	Case of 36

HydroG Liquid Filled No Bounce Hockey Balls

HydroG technology allows BAUER to take our standard no bounce hockey balls and partially fill them with liquid to reduce bounce even more. HydroG technology eliminates the "jitter effect," giving the ball a true roll for maximum performance.

HydroG Orange

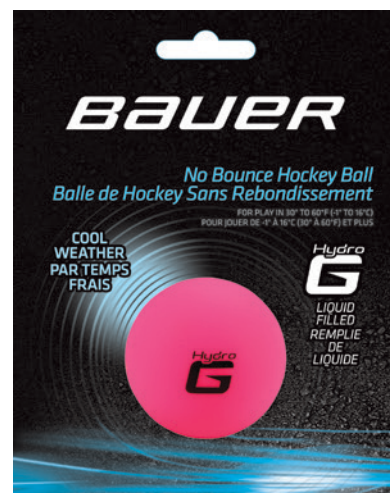

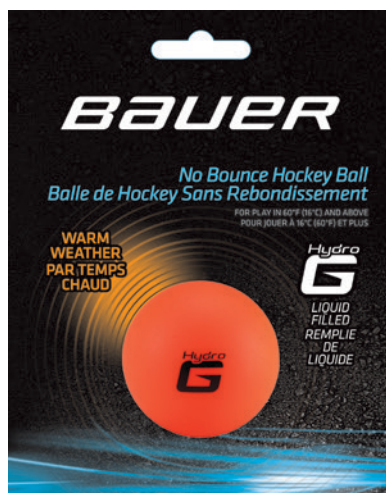

Warm weather: For play in 60°F (16°C) and above

Single Carded	[1048141]	Single ball on blister card
Bulk	[1048142]	Box of 36

THE BRAND HOCKEY WAS BUILT ON

Founded in Kitchener, Ontario in 1927, Bauer Hockey developed the first skate with a blade attached to a boot, forever changing the game of hockey. Since then, Bauer Hockey has continued to develop the most sought after products in the industry, including the widely successful SUPREME, VAPOR and NEXUS lines of product.

THEN

NOW

SKATES & STEEL	1933 BAUER introduces skate with blade permanently attached to the boot	VAPOR celebrates 20 years of developmental history with its 2017 VAPOR 1X Skate.
STICKS	2004 First composite stick with Dual Density technology core, the Triflex Gold — Vapor XX, is introduced.	MPX, QRT and Sweet Spot technology enhance player performance across all three families.
HELMETS & FACIAL	1964 BAUER develops its first molded plastic shell helmet, SK10.	BAUER changes the game again with the introduction of the RE-AKT 200 helmet.
PROTECTIVE	1980 First non-traditional lower body protection, including girdle concept still used today (Cooperalls).	The SUPREME 1S under protective and pant systems bring a new level of lightweight protection and performance to market.
GOAL	1986 “Dura-Soft” synthetic material replaces leather for goal pads and gloves for the first time (Cooper).	After realizing tremendous success with the launch of its Supreme 1S OD1N pad, BAUER rethinks its dynamic goaltender line and develops the first VAPOR goal lineup.
